Fat Fink Solid State Decoupler equipped with built in patented Reactive Component Isolator

- AC fault current rating 3,7kA for 30 Cycles
- Wide DC clamping voltage range -5.6 V
- High steady state DC current drain
- 60 Hz AC impedance of 0.04 Ω (Extra)
- AC steady state current 45 A @ 50/60 Hz
- Lightning impulse current rating Class 1: 100 kA for 10/350 μs EN61643-1
- Lightning DC spark over voltage -600 V EN61643-1

Technology that surpasses performance of Spark Gaps, VLDs, MOV's and traditional Polarisation cells . The SSD is the perfect choice of technology, where a short circuit can be tolerated during a fault condition. Certified for use in Hazardous classified environments
